

Fixture Type :

Project Name :

Date :

Pro AG® Gen2

For Breeder, Layers, and Broiler

PAG2XVT
2 Ft Heavy Duty Grade LED
16W agriculture lighting

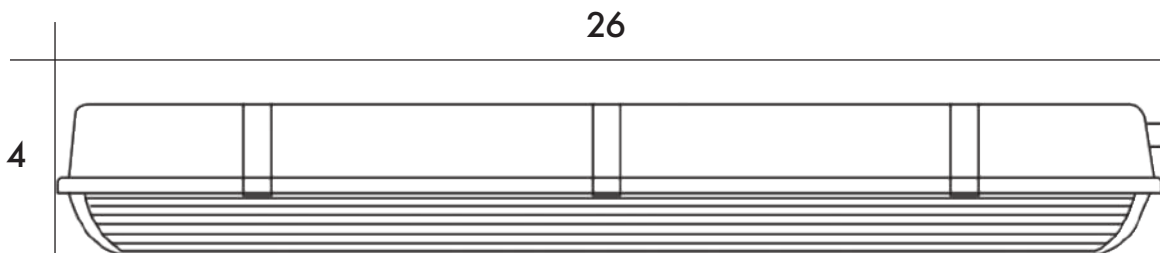

Product Features:

- Innovative tube light with better spectrum
- 16W LED lamps with last 50,000 hrs
- improve animal welfare with natural sunrise/sunset
- Durable and sustain able lighting solution
- Chemical resistant/hazardous environment housing

Product Certification:

Dimension:

PAG2XVT

Order Information:

Sample Order Number: PAG2XVT 2X8W2FLA -30-UNIV-CRH-SP

Series	Wattage	CCT	Voltage	Housing
PAG2XVT	2X8W2FLA	27K = 2700K Breeder Poultry 30K = 3000K Pullet Poultry 50K = 5000K Broiler Poultry	UNIV = 100-277V	CRH = Chemical Resistance Housing (Standard)
Packaging	Finish			
SP = Special Package	DF = Default Finish			
	CF = Custom Finish			

Product Specifications:

Construction:

- Build with fiberglass reinforced polycarbonate material
Seamless gasket seal paired with stainless steel components for optimal chemical and impact resistance
- Rounded edges design allow for easy water shed and durability against high pressure hose down
- Clear acrylic lens with wide beam angle for uniform, glare free illumination

Electrical:

- 2 X 8 Watt LED Tubes
- Available in 3000K/3000K/5000K with minimum CRI of 80
- Electronic drivers available for 120-277V application
- 50,000 Hours lifespan

Compliance:

- Components are UL recognized
- IP 68 Rated
- RoHS compliant
- Complies with IESNA LM79
- LEDs compliant with LM 80 standards

Warranty:

- 5 Year limited warranty
