- Old Jelly Jar With CFL lamps.

Professional Agricultural Lighting

World-class facility

Iowa Select Farms was our largest client back then, we learned so much from this company. Animal Matters! In 2014, most large corporate farm operations in the U.S. are still using the old jelly jar with CFL lamps. "There's no warranty, no reliable water/chemical resistant for power wash." ---Tony Thies, COO Iowa Select Farms. We realize there needs a change for this industry. We then together developed and tested the Vapor Lamp Series and Vapor SMD Series. Heavy-duty ProAG lighting products are guaranteed to withstand harsh barn environment for years to come.

-Gestation with ProAG Vapor Lamp X2

Simplicity

Understand customers need
Maintaining 1200+ hog sites are painful, from any point of view, ProAG LampX2 reduced this headache to minimum.

“ANIMALS MATTER”

The NEW ProAG LampX2 is designed with an brighter and more durable design to evenly distribute light for both the swine herd and humans caring for them. It features two designs, SMD or Lamps and different lengths and supports bio-security measures of modern swine facilities. It is suitable for use in sow barns, gestation buildings, nurseries, gilt development units and finishing facilities.

- Farrowing site with ProAG Vapor Lamp X2

The modular fixtures feature swine-specific Dim-to-Red technology and a Built For Your Barn® design. They are easy to install and wet location rated, guaranteeing it will hold up to regular wash downs.
