WCS LED Wall Cylinder

Description

The LED wall cylinder is a stylish and functional lighting fixture that is designed specifically for outdoor use. With its **up and down lighting** capabilities and energy-efficient LED technology, this cylindrical-shaped fixture is perfect for illuminating building exteriors, patios, gardens, and other outdoor spaces. The optional photocell feature ensures that the fixture automatically turns on at dusk and off at dawn, providing convenience and security. Whether you're looking to enhance the safety of your property or create a warm and inviting outdoor ambiance, the LED wall cylinder is an excellent choice for any outdoor lighting application.

Housing

The die-cast aluminum housing and glass lens combination ensures long-lasting durability and performance.

Mounting

Our fixture's wall mount is both user-friendly and reliable, ensuring a secure installation for your outdoor lighting.
