# WCSUD LED Wall Cylinder

## Description

The LED wall cylinder with **down light** is a sophisticated lighting fixture designed for outdoor use, providing ample illumination to the ground below. This cylindrical-shaped fixture features energy-efficient LED technology, making it a cost-effective and environmentally friendly option. The optional photocell feature ensures that the fixture automatically turns on at dusk and off at dawn, providing convenient and reliable lighting while also enhancing security. With its sleek design and advanced features, the LED wall cylinder with down light and photocell is an excellent choice for outdoor lighting applications where downward illumination is desired.

### Housing

The die-cast aluminum housing and glass lens combination ensures long-lasting durability and performance.

### Mounting

Our fixture's wall mount is both user-friendly and reliable, ensuring a secure installation for your outdoor lighting.
