CLHB LED Linear High Bay

Description

The CLHB Linear High Bay is a sturdy, dependable, adaptable, and robust compact Linear high bay. The specially crafted optical system can efficiently diminish glare and deliver a pleasing illumination effect. The utilization of dependable and robust die-cast housings enhances longevity and boosts efficiency. The MLH05 also provides field-adjustable lumen output in four modes: 100%, 80%, 60%, 40%; CCT options are accessible in two color temperatures, 4000K and 5000K. Both can be controlled via a straightforward DIP switch.
