TWP2 Traditional Wall Pack

Description

Introducing our cutting-edge LED wall pack with selectable wattage and 3 color temperature options. This innovative lighting solution combines exceptional energy and versatile customization option to meet the demands of any outdoor lighting application.

Constructed with durable materials and engineered to withstand harsh outdoor environments, this wall pack delivers reliable performance and longevity. Its sleek design and easy installation make it an ideal lighting solution for commercial building, parking lots, and outdoor spaces.

Mounting

The external portable mounting plate makes installation super easy and simple. There's no need to open fixture housing, nor drill on housing, which greatly minimizes the risk of water ingress.

Occupancy sensor (optional)

Designed to enhance your lighting experience while providing added convenience and security.

Emergency (optional)

8W Emergency battery, 900lm, 90mm.

Photocell (optional)

Optional photocell allows for security and energy saving.

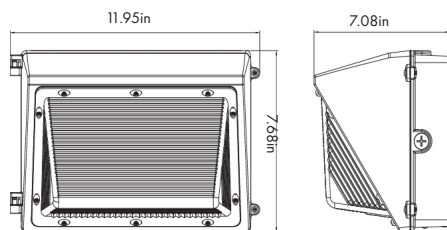

Power and CCT controller

The wattage and CCT can be changed by switch selection on the controller, it's easy and very fast to meet the varied requirements.

Dimension:
