LEDEXTCMBRC-R/G Series

Description

The Bi Color Red/Green LED Exit Sign is an efficient and versatile solution for emergency lighting needs. It features a bright red and green LED light that provides clear visibility in low-light conditions. This exit sign is also remote head capable, allowing you to extend the coverage of the emergency lighting system. With its sleek and modern design, this exit sign is perfect for use in commercial and industrial settings, ensuring the safety of your employees and customers.

Status Indicator

Manual test switch and charge.

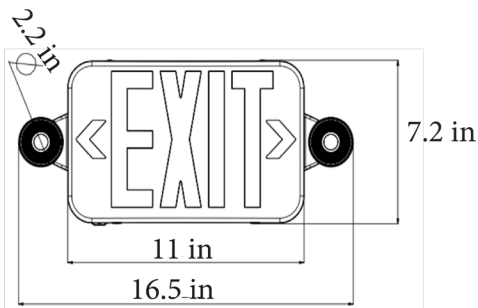

Color Selectable

Choose either the red or green LED using the built-in switch.

Construction

The housing is made of injection-molded thermoplastic ABS and features arrow knockouts that are universally compatible.
