UHB2 LED UFO High Bay

Description

The LED UFO High Bay is a revolutionary lighting fixture designed to illuminate large indoor spaces with efficiency and precision. Its sleek and compact design resembles a UFO hovering from the ceiling, providing a futuristic aesthetic appeal. This high bay light features advanced LED technology, delivering exceptional brightness and uniform illumination while consuming minimal energy. With its adjustable beam angle and superior heat dissipation capabilities, the LED UFO High Bay ensures optimal light distribution and long-lasting performance. Whether in warehouses, factories, or sports facilities, this lighting solution guarantees enhanced visibility, reduced maintenance costs, and a more sustainable lighting solution for any high-ceilinged environment.

Performance Data:

	5000K	
Wattage	Lumen	Efficacy
150W	21,000lm	140lm/W
120W	16,800lm	140lm/W
100W	14,000lm	140lm/W

Accessories:

Motion Sensor

Battery Backup

	5000K	
Wattage	Lumen	Efficacy
240W	33,600lm	140lm/W
200W	28,000lm	140lm/W
150W	21,000lm	140lm/W
