Application:

Suitable for construction sites or any other location requiring temporary light string

BASIC INFO

· Make sure the distances between live part of the device and metal parts are enough to prevent any insulation beaking.

· Before installation and maintenance of the device, please disconnect the power to prevent electric shock.

· The LED temporary light string must be installed in an appropriate environment, operating in hash environments may shorten the lifespan or even damage the device.

· Please keep the device away from any corrosive substance, clean with dry cloth only.

· To ensure personal safety, please make sure the device is staying firmly and securely when install on high places.
